Things You Need to Know before Arrival

01 Korea at a Glance

- **Official Name: Republic of Korea**
- **Official Language: Korean**
- **Population: 51.67 million (2025 estimate)**
- **Ethnic Groups : 94.8% Korean / 5.2% Non-Korean**
- **Area: 110,363km2**
- **Capital City: Seoul**
- **Time Zone: GMT + 9 hours**

Korean culture is characterized by harmony between modernity and tradition. Korean people rapidly embrace new technology and culture, but at the same time, they set store by courtesy to others and respect for the elders following the long traditions. In the cities, rows of skyscrapers and picturesque traditional buildings are harmonized well. The citizens have decent law-abiding attitude based on strong sens of community from traditional culture and it is one of the key values have led the rapid progress of economy and social system of today's Korea.

Also, the current Korean culture represented by K-pop, K-drama, K-food and etc. draws inspiration from Korean younger generation's emotions and various cultures all over the world. The younger generations of Korea easily expose to different culture and actively create something new with the high accessibility to internet and cutting-edge technology.

02 Climate and Clothing

Korea has very distinctive four seasons; spring, summer, autumn, and winter. The summers are very long, hot, rainy, and wet. The winters are freezing, dry, and mostly clear with some snow. When bringing clothes to Korea, please pack clothes that can prepare for extreme weather. From light clothing such as t-shirts to winter coats and jackets.

Spring (March-May)
Warm and delightful

Summer (June-August)
Muggy and wet wether, heavy and frequent showers

Autumn (September-November)
Refreshing and mild weather

Winter (December-February)
Freezing cold, snowy but dry

03 Currency

Korea's official currency is won (KRW). The Korean currency consists of a one thousand, five thousand, ten thousand, fifty thousand won note and ten, fifty, hundred, five hundred won coins. There are also one won, five won coins but these are little used currently.

Money Exchange

Certain currencies, such as US Dollar (USD), Euro (EUR), Japan Yen (JPY), China Yuan (CNY), etc. can be exchanged to Korean won by visiting a bank or an authorized exchange service center. Wherever you visit, please note that customer rates and commissions apply.

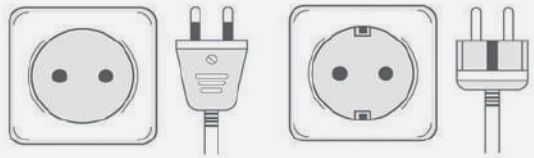

If you wish to bring money to Korea, it is recommended to bring either the US dollar or Euro rather than your own currency. It is because most of the time, the two currencies have lower cost than other.

Credit / Debit Card

Most of the business in Korea widely use and accept payment by credit cards. Visa, Master, American Express and other credit cards can be used.

04 Power plugs

In Korea, the power plugs and sockets are types C and F. The standard voltage is 220V. The outlet with two round holes is also used in countries like France, Germany, Austria, etc.

05 Mobile

Mobile Communication Operators

There are three major operators in Korea; KT, SK Telecom, LG U+. Each company offers different lines of devices and plans. Also, they provide ARS consultation service in foreign languages for their customers

Usim Card

Prepaid Sim Cards can be available for use with passports even before obtaining a Residence Card. Purchase and activation are possible at Incheon International Airport and Daegu International Airport. Additionally, activation through visiting an agent after online reservation is also possible. Please make sure to prepare the SimCard/e-Sim before coming to Korea or at the airport since it is quite difficult to get the prepaid SimCard/e-Sim without a Residence Card nearby DGIST.

- Online E-sim: You can order E-sim online here, but you need some help from a Korean friend because it is in Korean and it requires sign-up.

Remark: Some convenience stores like GS25 and CU sell prepaid SIM cards; however, they may require online activation.
You can visit SIM card stores in cities. They provide full options for prepaid or postpaid SIM cards. The staff often speaks English in major locations.

06 T-money

Purchase of a T-money card at the airport

From April 1, 2025, all city buses in Daegu will operate on a 'cash-free' basis. Passengers will be able to pay the fare only with a transportation card. We highly recommend purchasing a 'T-money Card' at a convenience store (e.g., GS25, CU) in the airport and loading it with cash. The T-money Card costs between KRW 2,000 and KRW 5,000, and the minimum recharge amount is KRW 1,000. It can be used for buses, the metro, some taxis, and even as a debit card at convenience stores.

07 KakaoTalk

Sign Up for KakaoTalk

Kakao Talk is the most popular messenger app in Korea. To have a chat with your lab colleagues to get useful information in Korea, you should download KakaoTalk and let your mentor know your KakaoTalk ID. Please note that you should download and sign up for KakaoTalk in your home countrysince it would not be convenient to do it in Korea without a local phone number.

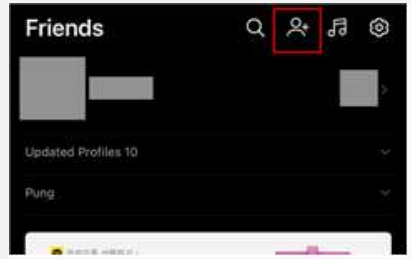

Disclaimer on the use of Kakao talk

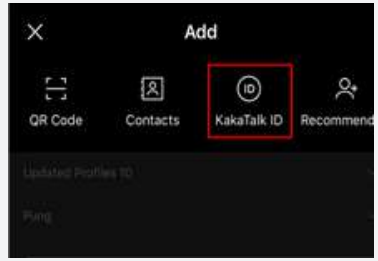

If you've lost your phone or are unable to access KakaoTalk, you can log in by entering the verification code sent to your phone in your home country. However, please note that if you're in a different country (already in Korea), you might not receive the code. Therefore, it's recommended to set up a backup account on your laptop or iPad. Additionally, KakaoTalk has a policy that allows only one account per phone number and device, so you cannot log in on two phones and must use different devices.

In case you didn't set up a backup account on other devices, the only option you would have is to login by using your email and register your new phone number that you will get in Korea or send verification code to your sim card in your home country then ask someone to send you the verification code. You can also login by using you email and register anyone's phone number in your country and get the verification code from them since one number for one account policy would still work.

14 How to Book the Limousine Bus from Incheon Airport

To take the airport limousine bus from Incheon Airport, it is recommended to book in advance. You can either make a reservation through a mobile app or purchase your ticket directly at the bus ticket counter located on the first floor of the airport.

Important Notice for Ticket Purchase

According to the Passenger Transport Service Act, tickets for the Incheon Airport → Gwangmyeong Station limousine bus must be purchased through the 'Incheon Airport Ticket Counter' or the 'Tmoney GO' mobile app. For trips from Gwangmyeong Station to your destination by KTX, please check your arrival time in advance and plan accordingly.

Booking via App

If you are boarding from Gwangmyeong Station, you can use the Korail app to reserve tickets. For departures from Incheon Airport, use the Tmoney GO mobile app.

Bus Frequency and On-site Purchase

Seats are usually available, and buses depart every 20 to 30 minutes. If you're not in a hurry, buying a ticket on-site is fine. However, if there's any delay or you are running late, you might miss the bus. If you are concerned about catching a flight, it is safer to reserve via app in advance.

KTX Gwangmyeong ↔ Incheon Airport Bus Fare

The fare for the airport limousine bus is categorized as follows:

- Adult (13 years and older): 16,000 KRW
- Child (under 13): 8,000 KRW
- Infant (under 6): Free

Note
Teenagers are charged the same fare as adults.

Tmoney GO App Guide

Even if you don't normally use express or intercity buses, it's helpful to install the Tmoney app. Most airport buses can be reserved and cancelled through the app.
After logging in, go to the 'Airport Bus' tab and input your departure and arrival locations. You'll then see available seats and schedules.

Bus Type and Seat Info

The limousine bus going to KTX Gwangmyeong has 25 seats and is a high-end 'Udeung' (premium) bus. This offers a spacious and comfortable ride. Payment via app is convenient and secure. Buses can be cancelled automatically 10 minutes before departure, so be sure to book in advance!

Incheon Airport Bus Ticket Counter

If you prefer to purchase offline, use the bus ticket counter near the arrival exit on the 1st floor. There are manned counters and unmanned kiosks available. At Terminal 1, go to exits 6–8 on the 1st floor near the arrival area.

Ticket Kiosk Machines

The kiosks are large and intuitive, making them easy to use even for elderly passengers. If assistance is needed, visit the ticket counter for help.

Where to Board at Gwangmyeong Station

If you are taking the limousine bus from Terminal 1 at Incheon Airport to Gwangmyeong Station, go to Exit 8 and proceed to Bus Stop 8B. The bus number is 6770, and it is labeled as a red KTX Limousine.

How to purchase AREX (Airport Railroad Express) tickets (Option2,3)

15 How to purchase AREX (Airport Railroad Express) tickets

To purchase AREX (Airport Railroad Express) tickets, you can buy them online, at ticket vending machines, or at the information counter. For online purchases, visit the official AREX website or app, select your route and time, and make a payment. You can then print your receipt or view your ticket on the app. Alternatively, at the airport or Seoul Station, you'll find automatic ticket machines near the AREX platforms. You can also buy tickets at the AREX Information Center.

Here's a more detailed breakdown:

1. Online Purchase

- Website/App: Go to the official AREX website or app www.airportrailroad.com.
- Select Route: Input your departure (Incheon Airport or Seoul Station) and arrival stations, date, and time.
- Choose Train: Select your desired train schedule.
- Payment: Complete the payment process.
- Ticket Retrieval: You can either print your receipt or view your ticket on the app.

2. Ticket Vending Machines

- Location: Find the Express Train Ticket Vending Machines near the AREX platforms at Seoul Station, Incheon Airport Terminal 1, and Incheon Airport Terminal 2.
- Purchase: Follow the on-screen instructions to select your destination, boarding time, and number of passengers.
- Payment: Pay for your ticket using cash or card.

3. Information Counter

- Location: Visit the AREX Information Center at Seoul Station, Incheon Airport Terminal 1, or Incheon Airport Terminal 2.
- Purchase: Inform the staff of your desired route and time, and they will assist you with your purchase.
- Payment: Both cash and card payments are accepted.

Additional Tips

- Discounts: Check for potential discounts when purchasing online or through travel agencies.
- Discover Seoul Pass: If you have a Discover Seoul Pass, you can use it to obtain your AREX ticket.
- QR Code: You can use a QR code to board the train after purchasing your ticket online or at a kiosk.

16 Guide to Using AREX Express Train from Incheon Airport to Seoul Station

AREX Express Train from Incheon Airport

The AREX Express Train connects Incheon Airport and Seoul Station quickly and directly. Unlike the regular commuter train that stops at 11 stations, this train runs non-stop. It takes approximately 43 minutes from Terminal 1 and 51 minutes from Terminal 2 to Seoul station.

AREX Schedule (Weekdays)

This table shows weekday departure times from Terminal 2 and Terminal 1, along with arrival times at Seoul Station. Please note that the schedule might slightly differ on weekends.

Train boarding location at Incheon Airport

Follow signs to 'Airport Railroad' near Arrivals and Departures on the 1st floor. You will arrive at the AREX Express platform marked in orange.

From the Burger King, continue straight to the large orange sign that says 'Express Train.' This is the entrance to AREX. There is also a ticket counter and kiosk here for on-site ticket purchases and pick-up.

After scanning the QR code from your mobile ticket or paper ticket at the gate, head down to the platform using the elevator. Check the car number written on your ticket (e.g., Car 5) and board accordingly.

Once aboard the train, find your seat using the seat number written on the ticket. Tickets can be changed once for free either on the AREX website or at the ticket counter.

Large luggage like suitcases can be stored in the designated rack area, and small bags can be placed in the overhead shelf above the seats. A bottle of water is provided for free once the train departs. Once you arrive at Seoul Station, your journey is complete.

How to Get from Incheon International Airport to Seoul Nambu Terminal (Option 8)

17 How to Get from Incheon International Airport to Seoul Nambu Terminal

Option 1: By Airport Limousine Bus

1. Go to the airport limousine bus ticket counter in Terminal 1 or Terminal 2.
2. Purchase a ticket for Bus No. 6001 or 6016, which stops at Nambu Terminal.
3. Board the bus at the designated platform.
4. Travel time is approximately 1.5–2 hours, depending on traffic.
5. Get off at Nambu Terminal Bus Stop (남부터미널 정류장).

* This is the easiest and most direct way if you have luggage.

Option 2: By Airport Railroad + Subway

1. From Incheon Airport, take the Airport Railroad Express (AREX) to Seoul Station.
2. At Seoul Station, transfer to Seoul Subway Line 3 (Orange Line).
3. Take Line 3 heading toward Ogeum and get off at Nambu Terminal Station (남부터미널역).
4. Follow exit signs to reach the terminal directly.

* Total travel time: approx. 90 minutes.
* Cheaper than a limousine bus, but requires transfers.

Additional Tip

- From Seoul Nambu Terminal, you can take a direct intercity bus to Hyeonpung, which is where DGIST (Daegu Gyeongbuk Institute of Science and Technology) is located.
- This makes Nambu Terminal a convenient transfer point for those heading to DGIST.

Tips

- If you have heavy luggage, the airport limousine bus is more comfortable.
- For a faster route during rush hour, consider using the AREX + subway option.
- You can pay with a T-money card or buy single-journey tickets at the station.

Bustago App User Guide

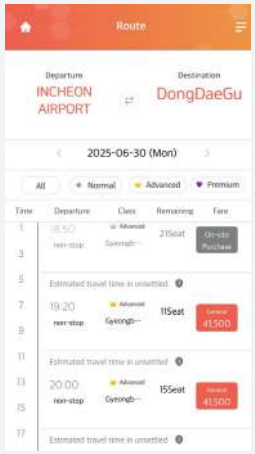

This guide explains how to book an intercity bus ticket using the Bustago mobile app.

Daegu City Bus Fare Payment Policy (as of 2025)
Since 2023, Daegu city buses no longer accept cash fares. All passengers are required to pay using one of the following methods:
- T-money card or Cashbee card (transportation cards)
- Mobile payment using T-money app or Samsung Pay (linked to transit cards)
- Korean bank cards with transportation chip (check card/credit card)

* Cash is not accepted on any city buses, including regular, express, and late-night buses.

Where to Buy or Recharge Transportation Cards
- Convenience stores (GS25, CU, 7-Eleven, etc.)
- Subway stations in Daegu
- T-money vending/recharge machines

Tips for Foreign Visitors
- Buy a T-money card at the airport or convenience store.
- Recharge it with KRW cash at a convenience store or subway station.
- The same card can be used in most cities across Korea, including Seoul and Busan.
- If you only have cash, you must buy or recharge a card before boarding the bus.

18 How to Book Tickets Online

Reserving Your Train Ticket

- There are a total of three ways to book a train ticket. You can either buy the day of at the station, book them on the Korail website, or finally, through the Korail app. However, if you wait to buy a ticket on the day of your trip, it is likely that tickets will be sold out, so it's always best to book in advance.
- The official KTX website and app are available in Chinese, Japanese, and English so you should be able to make a reservation with little trouble.

- You can make a reservation directly on the LetsKorail website.
- You will be greeted by the main Korean homepage, but don't panic! If you look to the top right of the screen, you will find a 'Language' drop down menu where you can select the language of your preference. English, Japanese, and Chinese are available.

- By selecting a language, you will automatically be redirected to a simplified version of the Korail homepage.
- Next, you will need to enter the information pertaining to your desired trip and press the 'Inquiry' button.

- Based on the specifications of your search, trains that meet the requirements will populate the page. In order to find out the corresponding price, you will need to click the 'Fare' button located to the far right.
- You may notice at the top that there are other types of trains available. These trains also go to a wide variety of locations but take much longer than the KTX. The KTX has limited stops and travels at a faster speed than the other trains indicated, so make sure to always check the train type. They are also the most expensive tickets available so please consider all factors when booking your trip.
- You will be able to choose between a First Class ticket or an Economy Class ticket. First Class tickets are much larger and provide the best comfort for longer trips.
- Please keep in mind that you won't be able to book tickets on the website or app within 20 minutes of the departure time, only in person.

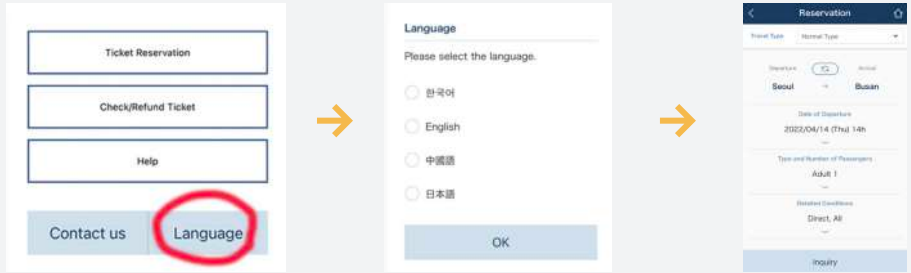

- Once you have selected a ticket, you will need to enter your personal information. Fill in all the required information and check the 'Agree' button.
- The final confirmation page before purchase.
- Confirm that all your personal information and train details are correct before confirming your purchase.

- If everything is correct, enter your card information and pay to complete your reservation.
- When the payment is completed, the ticket will come out as shown in the picture above, which you will need to print and bring with you to the train. If you are unable to print your ticket, then go to the train station counter, tell your reservation information, and they will give you your ticket. However, if you must do this, remember to show up a bit earlier so you have time to board the train!

19 How to Use the Korail App

- Download the Korail Talk app and select your preferred language on the main page. (English, Chinese, Japanese and Korean are available.)
- Enter the details for your desired trip such as travel type, arrival and departure location, date, number of people, etc.

- Once you have entered all applicable information, you will be presented with the trains that correspond to the desired location.
- Press 'Select' for the train that you want and 'Train Fare' to see the price of the train selected.
- Once you have made your final choice, you will be taken to a screen to enter your personal information. Again, remember that you will be unable to book any trains that depart within 20 minutes.
- Completing the order for a ticket on the Korail app.
- Confirm that all your personal information is correct and that the ticket chosen meets all your travel needs.
- Press the 'Payment' button on the bottom of the screen to select a payment card. You are able to use either a foreign card or Korean card to make your purchase. When you have entered the card information, click 'Check Out.'
- Once you have confirmed your purchase, the booking process will be complete! Once the reservation is complete, you will be able to check the ticket from the 'Reservation' tab on the app. Another benefit of using the app is that you don't need to print out your ticket, you can just show it on your phone.

Buying Tickets On-Site (feat. Seoul Station)

- When you arrive to the train station, depending on the station, there may be automatic ticket machines. If you don't have a Korean card, there are specific machines indicated that work with foreign cards. Make sure to check before using the machine.

- If you have trouble with the automatic machines or by chance the station you are at does not have them, you can always go to the ticket booth. The staff will be able to assist you in purchasing a ticket at the counter.
- Also remember that if you reserved your ticket on the website, you can come to this same counter to get your ticket printed.

20 Comparison: KTX vs. SRT

This document compares two major high-speed train services in South Korea: KTX (Korea Train Express) and SRT (Super Rapid Train).

Feature	KTX (Korea Train Express)	SRT (Super Rapid Train)
Operator	Korail (Government-owned)	SR Corporation (Private, Korail subsidiary)
Start of Service	2004	2016
Main Stations	Seoul Station / Yongsan Station	Suseo Station (Southeast Seoul, Gangnam area)
Major Routes	Seoul ↔ Busan / Mokpo / Gwangju / etc.	Suseo ↔ Busan / Gwangju / Daegu / etc.
Ticket Price	Slightly more expensive	Generally 5~10% cheaper than KTX
Travel Time	Comparable (Some routes: KTX slightly faster)	Comparable (Some routes: SRT slightly faster)
Comfort/Interior	Similar (both offer economy & first class)	Similar
Wi-Fi	Available (but varies by train model)	Available
Target Users	General national access via central Seoul	Gangnam-based users needing direct access to south

Summary:
- Use KTX if you're closer to Seoul Station or Yongsan Station.
- Use SRT if you're near Gangnam (Suseo Station) or want cheaper fares.
- Both are fast, efficient, and reliable for long-distance travel across South Korea.

Rail

• Type of Trains

	Type
High-speed Train	KTX
	SRT
Normal Train	Saemaeul
	Mugunghwa

• Key Differences:

- KTX (Korea Train eXpress)

» A high-speed express train operating at up to 300 km/h. It departs from Seoul Station, Yongsan Station, and Cheongnyangni Station. Connects major cities such as Busan, Mokpo, etc.

- SRT (Super Rapid Train)

» Another high-speed train, also running at up to 300 km/h. It departs from Suseo Station in southern Seoul. Often offers slightly lower fares compared to KTX.

- Saemaeul Train

» A premium-class conventional train that departs from Seoul Station, Yongsan Station and Cheongnyangni Station.

- Mugunghwa Train

» A standard conventional train that also departs from Seoul's major stations. It stops at smaller regional stations that are often skipped by KTX and other premium trains. A good option for local travel.

Mobile application : Korail(코레일) / SRT

- You can easily find the schedule and make reservation via the mobile application, Korail.

• Official website:
- **Korail** https://www.korail.com
- **SRT** https://etk.srail.kr
- Both websites support English, Chinese and Japanese. You can search routes, choose seats, and pay by credit card. An e-ticket with a QR code will be issued immediately after payment.

• How to Use the KTX (Korail) & SRT Mobile Apps

1. Download the App
- Korail Talk (코레일톡): Search "Korail Talk" on the App Store (iOS) or Google Play (Android).
- SRT 앱: Search "SRT" or "SRT 수서고속철도" on the App Store or Google Play.
- Both apps support English, although some parts may appear in Korean.

2. Search for a Train
- Open the app and choose the "Schedule" or "Ticket Reservation" menu.
- Enter your departure and arrival stations (e.g., Seoul → Busan), travel date, and departure time.
- Tap Search to see a list of available trains and seat types (Standard / First Class).

3. Choose a Train & Seat
- Select a train from the list based on time and price.
- Choose your seat direction (forward/backward) and seat class, if available.

4. Make a Payment
- Proceed to the payment screen.
- Enter your passport number if required.
- Pay with a credit or debit card (Visa, MasterCard, etc.).

5. Receive Your Ticket
- After payment, you will receive an e-ticket with a QR code.
- You can access your ticket anytime under the "My Ticket" or "Reservation" tab.

6. Boarding the Train
- Arrive at the station at least 10 minutes early.
- Use your QR code to enter through the ticket gate (no printing necessary).
- Find your car number and seat number as indicated in the ticket.

Tips

- You can also buy tickets at self-service ticket vending machines located inside major train stations (note: not available at subway stations). These machines typically offer English language support and accept cards.
  * However, on weekends and public holidays, tickets may sell out quickly due to high demand, making it difficult to get a desired departure time and possibly requiring a wait for the next available train.
- Tickets can usually be purchased from one month in advance up to 20 minutes before departure.
- Some trains have seats positioned in two directions, forward and backward, which you can choose depending on your preference and situation. If you are sensitive to motion sickness, please keep this in mind when booking your seat.
- KTX and SRT amenities include restrooms, nursing rooms, diaper changing tables and vending machines. Most trains also provide free Wi-Fi service.

25 How To Get A Taxi In Korea For Foreigners

(Kakao Taxi App)

Step 1. Download the application

Available on Android and iOS

• Make sure to allow location access for accurate pickup

Step 2. Choose the taxi

On the home screen, tap the "Taxi" icon

• You'll also see other options like bike rental, navigation, or parking

Step 3. Enter Your Pickup & Drop-off Locations

Tap the address bar and enter your current location and destination

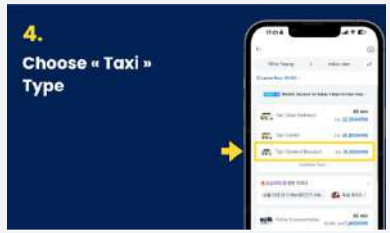

• Suggestions will appear in English, or you can copy/paste Korean addresses

Step 4. Choose Taxi Type

Kakao Taxi offers multiple vehicle options:

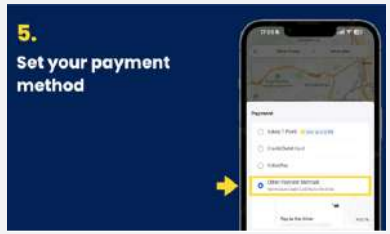

- General Taxi: Most affordable, standard cars
- Deluxe or Black Taxi: Higher-end vehicles with better service
- Smart Call or Request: Prioritized pickup with added fee

Step 5. Set Your Payment Method

- Online Payment
  (requires Korean bank account or card)
- Pay to Driver
  (in cash or by credit card great for foreigners)
- If you don't have a Korean bank account, simply swipe to "Pay to driver" and select Apply.

*Note: "Pay to driver" is available for General and Black taxis.

Step 6. Call the taxi

Tap "Request Taxi"

- Once matched, you'll see:
  - Car model & license plate
  - Driver name
  - Estimated time of arrival
- Wait at your pickup point and double-check the license plate — especially in busy areas.

Special Programs for International Members

01 Korean Language Center

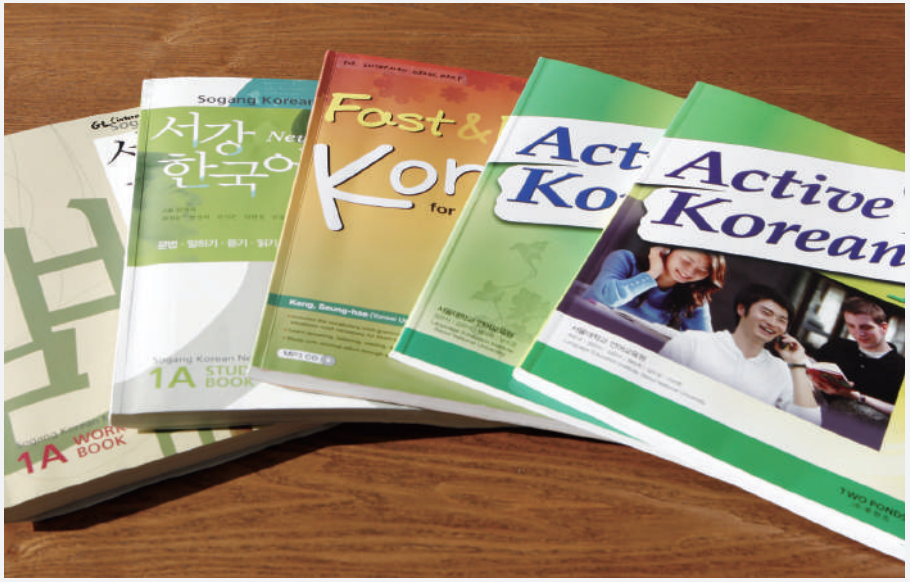

DGIST is expanding our global presence by creating a Bilingual Campus that brings together diverse perspectives. Our Korean Language Center was founded with the idea of encouraging meaningful connections between international students and Korean Students. DGIST believes that through language and culture, we can build a community where everyone grows together.

Homepage: https://www.dgist.ac.kr/klc/

02 Korean Language Class

DGIST provides Korean language class not only for international students but other international members and their family. Two different levels of classes, one for beginner and the other for post-ginner, are offered per each semester. International students can take the courses after registration and, other members (faculties, researchers, staffs and long-term visitors) and their family can audit the courses.

※ International students must take at least one Korean Language course to meet the requirements for graduation. Students get TOPIK level 3 or higher or the recognition for their proficiency by the professor of Korean Language course can be exempted from taking the course.

※ Auditors can take the courses for free of charge

03 Summer/Winter Intensive TOPIK Class

At DGIST, we are pleased to offer the Intensive TOPIK Class during the vacation period, designed to support international members preparing for the Test of Proficiency in Korean (TOPIK). The course is divided into TOPIK I (beginner) and TOPIK II (intermediate/advanced) levels, focusing on problem-solving and exam preparation. This class provides targeted practice and strategies to help you excel in the TOPIK and improve your Korean language skills effectively.

Faculty Members

- Guest Lecturer Prof. Jeong Hyo-jeong
- Guest Lecturer Prof. Shim Hyun-ju

Time

- 18:00~20:00 (Tue, Thu)
- Summer and Winter Vacation

06 'Living in Korea' Lecture Series

(Professor Byung Jong Lee, Sookmyung Women's Univ.)

This session is designed to provide useful insights, cultural context, and practical tips to help international members better understand and adjust to life in Korea. This course covers topics related to Korean laws, culture, politics, economy, and society.

07 Cultural Excursion to POSCO & Pohang Accelerator Laboratory

As part of our efforts to provide meaningful cultural and educational experiences, we previously organized an industry field trip to several major institutions. Participants visited leading companies and research facilities, including POSCO, one of the world's largest steel manufacturers, and the Pohang Accelerator Laboratory, a state-of-the-art research center for advanced science and technology. Through guided tours and on-site lectures, students gained valuable insights into Korea's industrial development, scientific innovation, and global competitiveness.
This field trip was organized specifically for participants of the Summer Internship Program, providing them with an opportunity to explore Korea's leading industries and research facilities firsthand.

08 Korean Stamp Engraving Class & Daegu Modern Alley Tour

As part of the cultural experience program for Summer Internship participants, we also hosted a Korean Stamp Engraving Class & Daegu Modern Alley Tour. In the first part of the program, students designed their Korean names and engraved them on traditional stamps, gaining hands-on experience with Korean calligraphy and craftsmanship. In the afternoon, participants joined a guided walking tour through Daegu's Modern History Alley, exploring significant cultural and historical sites that highlight Korea's modern development and urban heritage.

09 Buddy Program

Here at DGIST, we welcome our international students through the Buddy program, where we match our students with other existing students. In this program, international students will be provided with a general introduction to life on campus and receive various support for settling in.

10 Orientation for International Members

To help international members understand and adjust to life in DGIST and Korea, Korea, International Affairs Team(IAT) offers customized orientation to new international members.

- For new international students, orientation week will be held in the first week of the semester, which includes the special session to learn basic Korean language and culture and workshop session with buddy.
- The individual orientation is provided to new faculty and researcher on the date of arrival or right after the arrival. The date will be decided through the email communication.

When: During the first week

Time required: 30~60 minutes

05 How To Order On Baedal Minjok (배달의민족) Using A Foreign Credit Card

This guide will walk you through the process step-by-step.
*IMPORTANT DISCLAIMER: Do NOT log in to the Baedal Minjok app. If you do, you will not be able to use a foreign credit card and phone number. Always use the app without logging in to access the foreign card payment option.

Step 1: Open the Baedal Minjok App

Start by opening the Baedal Minjok app on your smartphone. You should see the main menu without logging in.

Step 2: Choose Your Delivery Address

Select your delivery address by tapping on the address field at the top of the screen. You may need to allow the app to access your location or enter the address manually.

The Crucial Importance of Accurate Address Information
When using Baedal Minjok as a foreigner, one aspect cannot be overstated: the absolute necessity of entering your delivery address accurately and completely.

Why Is This So Important?
- Language Barrier: Most delivery drivers in Korea speak only Korean. If they can't find your location, they will likely call you, and communication can be challenging if you don't speak the language.
- Detailed Addressing System: Korean addresses are often very specific, including street names, numbers, building names and unit numbers.
- Time Sensitivity: Food delivery is time-sensitive, and incorrect addresses can lead to cold food or even cancelled orders.

How to Ensure Address Accuracy:
- Include Everything: Make sure to input your complete address, including:
  -Building name (if applicable)
  -House/apartment number
  -Street name and number
  -Neighborhood or district
- You can use this website to convert an English street address in Korea to its official Korean version (or vice versa). However, you will still need to add the building name and house/unit number.
  Use Korean if Possible: If you can, have your address written in Korean.
- Add Notes: Use the 'additional instructions' or 'notes' section to provide extra details that might help the driver locate you easily.
- Double-Check: Before finalizing your order, review your address information carefully.

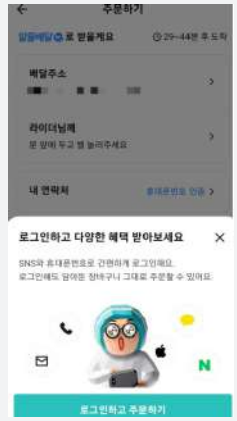

Step 3: Select Your Food and Add to Cart

Browse through the restaurants and select the items you want to order. Add them to your cart when you're ready to check out.

Step 4: Proceed to Payment

Once you're satisfied with your order, proceed to the order section. You'll see various payment options.
- You might see a popup asking you to log in or create an account. Remember our important disclaimer:

*Do NOT log in or create an account. Instead, look for an option to continue as a guest or simply close the popup. This is crucial to maintain your ability to use a foreign credit card.

Step 5: Enter Your Phone Number

You'll be prompted to enter a phone number.

• The great news is that you can enter your foreign phone number here. Make sure to include the country code (e.g., +1 for the United States) before your actual phone number.

Step 6: Select Foreign Credit Card Option

Scroll down the payment options and look for "해외 신용카드" (Foreign Credit Card). This is the option you need to select to use your foreign-issued credit card.

Step 7: Enter Your Credit Card Details

Now you can enter your foreign credit card information:

- Card number
- Expiration date
- C-VV (security code)

• Double-check all the information to ensure it's correct.

Step 8: Complete Your Order

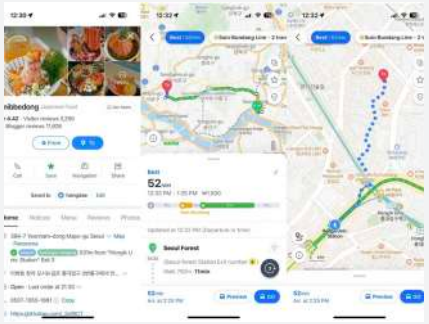

Review your order one last time, then confirm the payment. You may be redirected to your card issuer's verification page, depending on your bank's security measures.

• Remember, the success of your food delivery experience largely depends on the accuracy of your address. Taking a few extra moments to ensure all details are correct can save you from potential frustration and ensure you get to enjoy your delicious Korean meal without any hiccups!

• By following this guide and paying special attention to your address details, you're all set to enjoy the convenience and flavors of Korean food delivery through Baedal Minjok. Happy eating!

06 Essential Apps for living in Korea

Navigate like a pro with Naver Map (네이버 지도)

• Naver Map is the crucial navigation tool you'll need in South Korea, thanks to its popularity and features such as detailed maps, real-time traffic, route suggestions, and integration with public transportation systems.

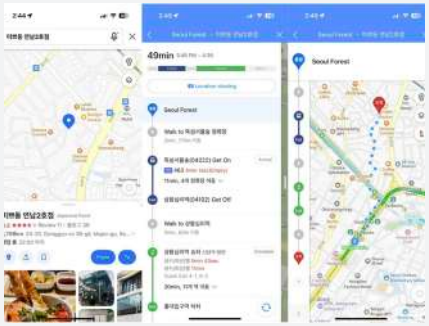

• It's easy to navigate, even if you're new to the app, and offers accurate directions for walking, driving, or public transport. Plus, it provides detailed subway and bus timings, making it perfect for travelers on the go.

Naver Map Saved Places

• One feature people especially loved is the ability to save places to a list and pin them on a map! With everything pinned on the map, we could easily plan an optimized walking route that hit all the must-visit spots.

• Naver Map also shines with its accurate bus schedules, clear subway exit details, and walking routes from inside subway stations to your destination. It even lists business opening hours and flags if a place has a break in the middle of the day—a lifesaver for avoiding closed restaurants.

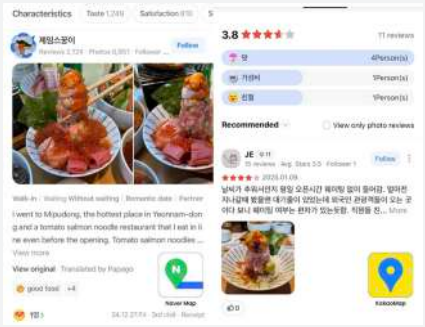

Discover local favorites with KakaoMap (카카오 지도)

• If Naver Map doesn't suit your style, KakaoMap is a great alternative with a clean interface and detailed reviews. Preferences vary even among locals—some find Kakao's reviews more reliable, while others stick with Naver Map, making it a matter of personal choice.

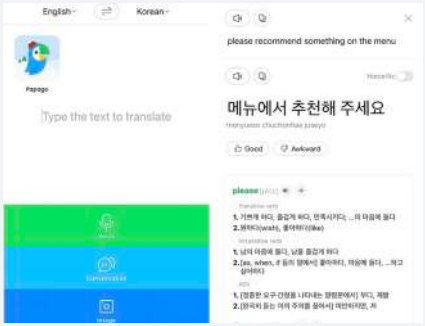

Amenities near Campus

Naver Map vs KakaoMap reviews

- Some prefer Naver Map for its in-built Papago translation feature, which is super helpful for understanding restaurant and attraction reviews. However, one downside is that Naver doesn't display the number of stars for each review. On the other hand, Kakao Maps does, so you can quickly gauge whether a review is positive or negative at a glance.
- Ultimately, both apps are excellent tools, and the choice comes down to what suits you best. Try both and see which one aligns with your preferences and needs!

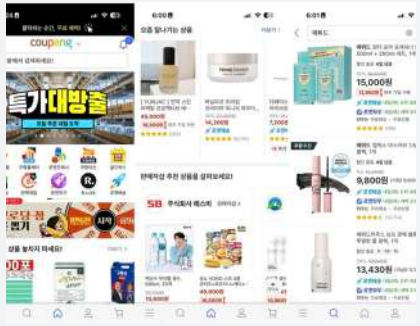

Break the language barrier with Papago (파파고)

Papago home screen and "please recommend something on the menu" translation

- When it comes to navigating language barriers in South Korea, a translation app like Papago is essential. While Google Translate offers a wider range of languages, Papago shines in Korea because it's specifically designed for East Asian languages.
- Developed by Naver, it's optimized for translating Korean into English (and vice versa) with greater accuracy, making it more reliable for travelers.
- One of Papago's standout features is its image translation. Simply snap a photo of a menu, street sign, or page of text, and Papago will translate it instantly. People found this especially useful for navigating apps like Coupang and Baemin, which are entirely in Korean. It was also a lifesaver for understanding Kakao Talk updates from businesses and for reading detailed product descriptions when shopping online.
  Even as someone who speaks Korean, we rely on Papago to navigate menus — especially when it comes to unfamiliar dishes.
- Papago makes dining and exploring in Korea so much easier.

Shop anything, anytime with Coupang (쿠팡)

- Think of Coupang as the Amazon of South Korea. From travel essentials to local snacks, this app has it all. Plus, its "Rocket Delivery" service ensures lightning-fast shipping—even overnight. However, it's important to note that a Korean phone number is required to place orders on Coupang.
- It's also great for cheaper alternatives to convenience stores! Ordering from Coupang made the process quick and stress-free.
